Ureaplasma urealyticum	Negative		
Herpes Simplex Virus 1	Negative		
Herpes Simplex Virus 2	Negative		
Treponema pallidum	Negative		

Comment

- This test is based on multiplex RT-PCR reactions for the detection of bacteria and protozoa in swab samples, urine and thin prep samples as an aid to the evaluation of infections.
- The test result should be used in conjunction with clinical presentation and other laboratory markers.

Kindly correlate with clinical findings

Conditions of Reporting: 1. The tests are carried out in the lab with the presumption that the specimen belongs to the patient name as identified in the bill/test request form. 2. The test results relate specifically to the sample received in the lab and are presumed to have been generated and transported per specific instructions given by the physicians/laboratory. 3. The reported results are for the information and interpretation by the referring doctor only. 4. Some tests are referred to other laboratories to provide a wider test menu to the customer. 5. Max Healthcare shall in no event be liable for accidental damages loss, or destruction of specimen which is not attributable to any direct and mala fide act or omission of Max Healthcare or its employees. Liability of Max Healthcare for deficiency of services, or other errors and omissions shall be limited to fee paid by the patient for the relevant laboratory services.
